

4" Four-Digit Clock Flush

DC-40F

DC-DigitalTM
by IES Ltd.

Features

- Only two wires required
- Solid state
- Patented clock design
- 5-year warranty
- 4" super bright display
- Low voltage operation
- 24 or 120 volt AC operation
- Surface or flush mount
- Visible up to 200Ft.

Options

- Wireless receiver
- Count down timer
- Product counter
- 3-wire GRC reset
- RS-232 input
- 3-wire 59th minute reset
- Count up timer
- Wired or Wireless remote

Specifications

- **Display** Four digit; seven segment; red LED display
- **Case** Steel; Front 18"W x 9"H x .125"D Back Box; 14.5"W x 7.25"H x 2.75" D
- **Weight** 5.8 pounds
- **Power Source** 24VDC at 250mA
(24VAC 60Hz at 250mA)
(120VAC 60Hz at 65mA)
- **Operating Temp.** 0° to 49° Celsius (32° to 120° Fahrenheit)
- **Case Finish** Black powder coating
- **Cabling** Two wires

DC-Digital Clock Description

The DC-Digital Clocks are designed to run and reset off of two wires, as opposed to most digital clocks, which require four wires. This patented design can be used in either existing buildings or new construction. Model DC-40F is a 4.0" display, that runs off of DC power. Model AC-40F and AC40FA are 4.0" displays, that run off of AC power.

DC-Digital Clocks can be used as stand-alone, non-system clocks, or can be linked via most master clocks to form a hourly and 12-hour automatic correction system. Using DC-Digital accessories, these clocks may be adapted to existing flush-mounted back boxes.

Back View

Side View

- For the DC-40F model, connect the red cable to the positive power supply lead and the black cable to the negative on the 24VDC power supply lead. If the polarity is reversed, the clock will simply stay in the correction mode.
- For the AC-40F (24VAC) model, connect the black and red cables to the 24VAC power supply lines.
- For the AC-40FA (120VAC) model, connect the two black cables to the 120VAC supply lines.
- Industrial Electronic Service, Ltd. will not warranty any DC-Digital clock that has been connected to a power supply other than what are specified.
