- Patented clock design
- 24 or 120 VAC Operation

Specifications

- **Display** Six digit; seven segment; green or red LED display
- **Case** Aluminum; 13"W x 5.875"H x 3.125"D
- **Weight** 3.0 pounds
- **Power Source**

DC-256	24VDC at 400mA
AC-256	24VAC 60Hz at 400mA
AC-256A	120VAC 60Hz at 200mA
- **Operating Temp.** 0° to 49° Celsius (32° to 120° Fahrenheit)
- **Case Finish** Clear aluminum finish

DC-Digital DC-256 Clock Description

The DC-Digital Clocks are designed to be used in any application where a clock is needed. This unique design can be used in either existing buildings or new construction. DC-Digital clocks can be used as stand-alone non-system clocks, or can be linked via most master clocks to form a hourly and a 12-hour automatic correction system. Using DC-Digital accessories, these clocks may be adapted to existing flush-mounted back boxes.
